PROFESSIONAL SUMMARY

Fullstack software engineer with 3+ years of experience shipping B2B SaaS and cross-platform products. Backend in PHP / Laravel and Node.js (NestJS, AdonisJS), frontend in TypeScript with React, Next.js, Angular and Vue.js. Hands-on with multi-tenant architecture, REST API design, automated testing, CI/CD and AI agent integration (MCP servers, LLM orchestration). Currently completing a Master's degree in Fullstack Development and Management in Bordeaux.

SKILLS

LANGUAGES TypeScript, JavaScript, PHP, SQL, HTML, CSS, SCSS

FRONTEND React, Next.js, Angular, Vue.js, Ionic, React Native (Expo), Tailwind CSS, GSAP

BACKEND Laravel, NestJS, AdonisJS, Node.js, REST APIs, PostgreSQL, MySQL, multi-tenant architecture

AI AND AGENTS MCP servers, LLM orchestration, Ollama, Qwen 2.5, embeddings and vector search, Claude Code, OpenCode, edge AI

DEVOPS AND TOOLING Docker, CI/CD, GitHub Actions, Git, Railway, AWS S3

TESTING PHPUnit, Vitest, Playwright, Maestro

TOOLS AND METHODS Figma, Photoshop, Agile / Scrum, code review, technical documentation

WORK EXPERIENCE

Fullstack Developer - Thegreenshot

Bordeaux, France (hybrid) | August 2024 - Present

- Develop Ooviiz, a B2B SaaS platform optimizing audiovisual production workflows, on a multi-tenant architecture.
- Build and maintain a PHP / Laravel backend serving Angular and Vue.js + Ionic client applications.
- Contribute to feature design and architecture decisions, automated tests and CI workflows.
- Prototype agentic pipelines: Laravel orchestration driving a Qwen 2.5 model served locally through Ollama.

Web Developer - Agence Thrive

Bordeaux, France | April 2023 - August 2024

- Delivered showcase websites and customer portals for a wide range of clients using PHP, WordPress, JavaScript, SCSS and GSAP.
- Translated design files into responsive, accessible and animated interfaces, and handled deployments, maintenance and client support.

PROJECTS

Inkgora - Social reading network (inkgora.com)

Personal product | Live on iOS, Android beta with 12 testers

- Designed and shipped a cross-platform product: Laravel REST API, Next.js web app and Expo mobile app.
- Set up a complete CI pipeline covering unit, integration and end-to-end testing with PHPUnit, Vitest, Playwright and Maestro.
- Implemented ZIP-bomb mitigation and Apple OAuth authentication; building an embeddings-based recommendation engine as a dedicated microservice.

Mobilistud - Student sub-letting platform (mobilistud.com)

B2B SaaS | Incubated at EFREI

- Built automated bilateral contract generation, real-time messaging and an in-house KYC verification flow.
- Stack: React, AdonisJS, PostgreSQL and AWS S3.

EDUCATION

Master's Degree, Fullstack Development and Management

EFREI, Bordeaux, France | 2024 - 2026

- Thesis: "Rethinking SaaS in the age of agentic design" - TypeScript MCP server proof of concept with Laravel orchestration.

Bachelor's Degree, Web Development

École Supérieure du Digital, Paris, France | 2021 - 2024

- Capstone project: a fullstack project-management platform built with React and NestJS.

LANGUAGES

French - Native

English - B2 (upper intermediate)

Spanish - A2 (elementary)
