– EXPERIENCE

Fullstack Developer – Thegreenshot

AUG 2024 – PRESENT

Bordeaux / Hybrid

- Building Ooviiz, a B2B SaaS optimizing audiovisual productions – multi-tenant architecture.
- Stack: PHP / Laravel backend, Angular and Vue + Ionic clients.
- Active contributor to feature design and architecture decisions.
- Experimenting with agentic pipelines: Laravel orchestration, Qwen 2.5 via Ollama.

Web Developer – Agence Thrive

APR 2023 – AUG 2024

Bordeaux

- Showcase sites and user portals for a range of clients (PHP, WordPress, JS, SCSS, GSAP).

– PROJECTS

Inkgora – social reading network

INKGORA.COM ↗

iOS live · Android beta (12 testers)

- Cross-platform: Laravel API, Next.js web, Expo mobile.
- Full CI: PHPUnit, Vitest, Playwright, Maestro · security: ZIP-bomb mitigation, Apple OAuth.
- Roadmap: embeddings-based recommendation search, shipped as a dedicated microservice.

Mobilistud – student sub-letting platform

MOBILISTUD.COM ↗

B2B SaaS · EFREI incubator

- Automated bilateral contract generation, real-time messaging, in-house KYC.
- Stack: React, AdonisJS, PostgreSQL, S3.

– EDUCATION

Master's, Fullstack Development & Management

2024 – 2026

EFREI – Paris

- Thesis: “Rethinking SaaS in the age of agentic design” – MCP TypeScript server POC + Laravel orchestration.

Bachelor's, Web Development

2021 – 2024

École Supérieure du Digital – Paris

- Capstone: a full project-management platform – fullstack ReactJS + NestJS.
